NEOFELIS

The new generation of dismounted warrior system

NeoFelis relies on Safran Electronics & Defense's experience in integrating and realizing smart soldier systems, which are today in service for more than 10 years. NeoFelis provides operational effectiveness, comfort of wear and ease of use for the soldier and his group, when dismounted as well as in their vehicles, in any circumstance. NeoFelis meets mission requirements for land forces, special forces and police.

Blue Force Tracking

Where am I and where are my friends?
Where are my leader and my vehicle?

Situational Awareness

Where is the target?
What is its localisation?
What or Who is it?
